

**RATING GOOD, CAN'T SHUT OUT N. Y. LIFE ON OTHER GROUNDS**  
**PHOENIX, Nov. 25.**—Ruling to sustain the claim of the New York Life Insurance company to its right to continue its business in this state, the state corporation commission yesterday found that the evidence against the company did not warrant revocation of the company's license, but reserved an incidental decision concerning the company's literature.

An investigation of the company's affairs was held by the commission on November 22, evidence being brought which was said to show that the company offered to hold a person insured from the time of receiving for the first premium payment after accepted medical examination and that in a specific case subsequently the company refused recognition of a death claim on the ground that the insured person had not received his policy up to the time of death.

On the advice of the attorney general's office the commission held that its power to revoke the company's license, at the present status of the situation, covers only the point of the company's financial rating which is conceded to be good.

Chairman Amos A. Betts of the commission rendered the decision, with Commissioner D. F. Johnson concurring.

#### ALLEGED I. W. W.

##### IS FOUND GUILTY

**BISBEE, Nov. 26.**—C. H. Meyers, alleged I. W. W. who was arrested Saturday on a charge of violating the city ordinances regulating the placing of posters, stickers and other matter in the city of Bisbee, was found guilty yesterday by Judge Hogan, who will pronounce sentence this morning.

Meyers is quoted as having said in the witness stand that he is an Austrian, 21 years of age, and that he has never taken any steps towards gaining American citizenship although he has been in this country since he was one year old. When he was about to be given the usual oath before testifying, he refused it, but said that he would "affirm" the truth of his declarations. His testimony was very contradictory.

In addition to various pieces of I. W. W. literature which were found upon his person at the time of his arrest, he carried several appeals to theists. When asked if he believed the I. W. W. and irreligious doctrines which he was carrying with him, he replied, according to the police, that "if he did not believe them he would not carry them."

#### PROMINENT BISBEE CITIZENS BUY NEW PHOENIX RESIDENCES

**Phoenix, Nov. 25.**—Two prominent citizens of Bisbee are to become residents of Phoenix. This has been indicated by the purchase, on North Central avenue, of two five acre tracts on which are to be erected home for E. E. Ellinwood and William J. Brophy. The former for years has been chief counsel in the southwest for the Phelps-Dodge company and the latter for even a longer period has been in charge of the Phelps-Dodge mercantile interests. For more than a year Mr. Brophy has been in Paris, assistant to James S. Douglas in charge of Red Cross supplies in France. On his return, he announced his separation from active business, though he retains a large personal interest in service and other corporations in Bisbee and Douglas.

#### MOTHER, FATHER AND SON ALL ATTEND SAME SCHOOL

**PHOENIX, Nov. 25.**—Mother, father and son are all at college together. Last fall Harry Kennedy, prominent lumber dealer here, and Mrs. Kennedy accompanied their son, Vernon, to Palo Alto, California, established their home here and saw the young man matriculated in Stanford university. Letters lately received by friends here said Mr. and Mrs. Kennedy themselves had enrolled as students and are now attending classes as regularly as any freshman.

#### HEADS DENTAL SOCIETY

**PHOENIX, Nov. 25.**—At a late meeting in Phoenix of the Arizona Dental Society, John T. Dunlap was elected president; W. G. Barakman, vice president and J. C. Roberts, secretary and treasurer.

#### TRIO COOL AND DUMB WHEN ARRAIGNED ON AUTO THEFT CHARGE

**PHOENIX, Nov. 25.**—Pauline Breen, Rex V. Breen and Ralph Stone gave but little information concerning themselves when they were arraigned before Judge Wheeler yesterday afternoon charged with the theft of a new \$2,000 motor car from Burt Nabors, in front of the Elks theater the night of November 20. Judge Wheeler set their bond at \$5000 each, and their examination will take place Wednesday at 10 o'clock.

Breen, his sister and brother, resided near Douglas on Saturday afternoon by Deputy Boucher. They are alleged to have been in the car when arrested. Boucher will be present at their examination as a witness for the state.

The girl said yesterday afternoon she was "nearly 18" but declined to say where she and her brother lived. Letters addressed to her at Chandler were found in her possession. Her brother, Rex, is a good looking young man, but he proved as reticent as his sister, Stone, as did the others, protested his innocence.

Two other persons suspected of being implicated in the motor car theft have been arrested by the authorities, and are being held for investigation.

#### NEW EXPERIMENTAL WEATHER BUREAU STATIONS TO OPEN

**PHOENIX, Nov. 25.**—After having established experimental weather bureau stations for observation of clouds, wind and clarity of the air, Observer J. H. Mordon, of the weather bureau station here, was back in Phoenix today. Experimental stations were placed at Wenden, Ariz., Bagdad and Cima, Calif., varying in altitude from 4000 to 6000 feet, and will be maintained for a year by the government for the Smithsonian institution. From the three, a permanent station will be chosen to gauge intensity of the sun's rays. Observers to take charge of the stations are:

Wenden, August Nord; Cima, Herbert Gibson; Bagdad, Robert Andrews.

#### HELD FOR FEDERAL GRAND JURY PROBE

**PHOENIX, Nov. 25.**—Robert Morgan, J. C. Gerrens and Emil Henke were bound over to the federal grand jury by United States Commissioner Henke yesterday as the result of an arrest made a few days ago by federal officers who surprised the men in the act of operating a still.

"Map" Kinsey and Earl Watkins, who were taken into custody with the other three men, were released when it was shown that they chanced to be at the ranch when it was raided by Frog Weage, deputy U. S. marshal, assisted by Constable Haze Burch and representatives of the city police department. The inopportune visit of Kinsey and Watkins led the officers to believe that they too, were operating with the men who are alleged to have had the largest still in the county, the capacity being 75 gallons to one run.

Gerrens was not at the ranch at the time, but was later captured in Casa Grande. His bond and that of Henke who is an alien enemy, was placed at \$500, while Morgan's was fixed at \$1000.

#### CALUMET & ARIZONA TO CURTAIL ITS OUTPUT TO 50 PERCENT PRODUCTION

**DOUGLAS, Nov. 25.**—Production of the Calumet & Arizona Mining company will suffer a material reduction in the immediate future, according to Gordon R. Campbell, secretary of the company, who with Captain Thomas Hoatson, vice president, is in Arizona on an inspection trip. In line with what he said was a general movement among copper companies of the United States, Mr. Campbell announced that Calumet & Arizona would revert to approximately the same production as that of last spring which was about 50 per cent of normal.

Mr. Campbell said copper producers found their product accumulating rapidly with no hope of large sales until a peace treaty was signed with the central powers. Retrenchment, therefore, had become necessary.

#### ARIZONA CIVIL AUTHORITIES STRONG AGAINST RADICALISM

**PHOENIX, Nov. 25.**—That opposition to radicalism has become one of the basic features of Arizona civil administration is indicated by Governor Campbell's Thanksgiving proclamation.

After reference to the finer spirit with which the nation and state have emerged from the fires of wartime, he gives further commendation to his fellow citizens in the statement that the relations in Arizona between capital and labor "have been amicable of late betokening the approach of a better understanding of the rights of each; seditious organizations have not openly sowed the seeds of discord and those who oppose the government have found this is not the fertile field it once was for their nefarious work."

The governor declares the fidelity of the returning soldiers "has had a heartening effect upon those disposed to lean toward the crop of isms which seemed, with startling suddenness, to find root in the soil which we believed to be indigenous to the growth of sane civilization."

#### POPULAR HIGHWAY.

This popular highway, Fairbanks to Nogales, via Patagonia, promises to become popular with the traveling public. Mr. Van Franks, who has been supervising the location of the highway, has, it is said, succeeded in shortening the road to Nogales considerably, and, better yet, has abandoned parts of the old river road and laid the new line where there is no grade exceeding six per cent. This means better time of course, and greater safety and pleasure to car drivers.—Patagonian.

#### HIGHWAY COMMISSION GETS EQUIPMENT FROM FEDERAL GOVERNMENT

**PHOENIX, Nov. 25.**—The state highway commission today received from the federal government approximately \$50,000 worth of equipment, wagons, cars, concrete mixers and other material available for use in road construction.

#### ATTENTION, RIFLEMEN. TOURNAMENT TOMORROW

Some excellent scores are being made daily at the range in the local tournament which is being conducted by the Tombstone Rifle Club. Medals are offered for the highest scores in the various classes and each shooter has been classified according to the club records.

Tomorrow, Thanksgiving, is the last day of the tournament and all members who have not shot are urged to notify Secretary W. T. Boyd the time that will be most favorable and scheduling will be arranged accordingly as far as possible.

The first squad of six men will begin shooting at ten o'clock, the second squad about noon, third about 2 p. m. and so on until all have gone over the range. Remember every man that shoots boosts the club as this tournament is for the purpose of making qualifying scores for the annual report to the government.

If you have not qualified arrange to do so, if you have see that the other members go down.

Get together and help the club make a report on every man. Recognizing the value of an active rifle club to the town, some of the business houses have offered merchandise prizes to be competed for. The list includes a new Springfield rifle. This contest will be a handicap but no member will be eligible to enter who has not qualified. Visitors will be welcome at the range tomorrow and it is hoped a big gallery will watch the sport which the government is trying to make the American past time.

#### ATTORNEY GENERAL TO ACT IN ARIZONA STRIKE THREAT

**PHOENIX, Nov. 25.**—United States Attorney General Palmer is to outline any necessary steps to be taken by federal authorities in Arizona in the event I. W. W. attempt to carry out threats of a statewide strike of copper miners next spring, tying up the industry, it was said by United States district attorney Thomas A. Flynn.

Phoenix—Arizona cotton ginnings to Nov. 1st totaled 31,674 bales.

#### PHOENIX BUSINESS MEN FAVOR OPEN SHOP RULE

**PHOENIX, Nov. 25.**—The open shop has been given unanimous endorsement at a meeting of members of the Phoenix chamber of commerce, held at the Woman's club, with about 300 business men present. The expression came in the form of a ballot and in the signing of a roll.

The chamber of commerce at the meeting also was put in favor of a new construction program for the high school, for a union depot, even at the cost of closing one street in the southern part of the city, for a change in the system of the chamber of commerce, to carry a larger part than now of the activities of the commercial life of the city and rather less of the immigration work that has been the principal idea in its administration heretofore. Recommendation was made that Christy park be fitted up as a tourist camp ground. Possibly the largest applause of the evening was when Secretary Harry Welch declared in favor of a civic cleanup that shall embrace the I. W. W. as the most noxious weed of all.

#### GRADUATE NURSES OF ARIZONA TO MEET

**TUCSON, Nov. 25.**—A mass meeting of all graduate nurses in the state will be held at the Safford auditorium Wednesday, Dec. 3, at 3 p. m. Miss Adda Eldridge, inter-state secretary will be present and address the nurses on state and national associations, and war-time methods. It is hoped that all graduate nurses will make a special effort to be present. A reception and supper for Miss Eldridge and the visiting nurses will be held at 8 p. m. of the same day.

#### PHOENIX OVERSEAS SOLDIER WEDS WELFORD, TEXAS, GIRL

**PHOENIX, Nov. 25.**—At the Methodist parsonage, Rev. Harcourt Peck officiating has been solemnized the marriage of W. J. Lawrence, of Phoenix, and Miss Nina B. Lain, of Welford, Texas. The groom lately returned from overseas service with the engineers and has a farm home northwest of this city.
